Re: Docket No. 272 - Middletown-Norwalk 345kV Transmission Line

Dear Ms. Katz:

This letter provides the response to requests for the information listed below.

While it is not possible to provide all the information requested at this time, the Company is attaching the information which has been completed.

Response to TOWNS-02 Interrogatories dated 02/17/2004
TOWNS - 042

Very truly yours,

Anne B. Bartosewicz
Project Director - Transmission Business

ABB/tms
cc: Service List

**Witness: Cyril J. Welter
Request from: Connecticut Siting Council**

Question:

Reference Attachment 1 to the response to AG Interrogatory AG-013.

- a. Identify the 5 structures in Milford and the structure in Wallingford that must be “addressed.” Please also explain what is meant by the term “addressed.”
- b. Indicate the number of schools in each town which abut the ROW for the OH portion of the “Primary Route Under Consideration – Scovill Rock to East Devon” and the “Additional Portion of All Overhead Alternative B Route – East Devon to Norwalk.”
- c. Indicate the number of camps in each town which abut the ROW for the OH portion of the “Primary Route Under Consideration – Scovill Rock to East Devon” and the “Additional Portion of All Overhead Alternative B Route – East Devon to Norwalk.”
- d. Indicate the number of places of worship in each town which abut the ROW for the OH portion of the “Primary Route Under Consideration – Scovill Rock to East Devon” and the “Additional Portion of All Overhead Alternative B Route – East Devon to Norwalk.”

Response:

a. The five structures in Milford and the structure in Wallingford are identified by parcel numbers. The table below lists the parcel numbers, the 400 scale aerial segment on which they can be seen, and the town in which they are located. A complete set of the 400 scale aerial segments is available in Volume 9 of the Application.

Town	400 Scale Aerial Segment	Parcel #
Wallingford	17	212 1 6
Milford	42	115 802 6
Milford	43	96 914 23
Milford	44	85 925 4
Milford	45	62 928 7
Milford	45	62 928 5

These structures have been identified by using the aerial photography to determine possible encroachments within the existing right of way. The term "addressed" refers to CL&P's determination that an encroachment exists, and what, if anything, needs to be done to provide for the safety of the general public and CL&P workers and facilities.

b., c., d. Please see the attached Spreadsheet.
